

Department of  
**BIOPRODUCTS AND  
BIOSYSTEMS ENGINEERING**  
UNIVERSITY OF MINNESOTA

**BBE SUMMER TEACHING REFRESHER JULY 11 - 15**

# **FERMENTATIONS: BIOFUELS TO BREWING BEER**

*Target audience: Grade 9-12 science teachers*

- **Professional development opportunity with focus on applications of chemistry and biology that have led to biofuels and fermented foods.**
- **Discover the most recent technology and uses of biofuels in industry and the not-so-obvious connections between these fuels and fermented food products like beer.**
- **Learn how to brew your own beer with a beer making kit that's yours to keep!**
- **Stipend: \$300**
