MINNESOTA ACADEMY OF SCIENCE

—Promoting Excellence in Science Since 1873—

Help Minnesota Shine Support Our STEM Pipeline

At the Minnesota Academy of Science (MAS), we know that engaging students in Science and Technology research, mentoring, fostering teamwork, and recognizing excellence remain proven ways to keep students in the STEM pipeline. Our programs and events are designed to do these very things so that Minnesota companies will continue to have a talented pool of STEM graduates from which to draw.

Our individual and corporate sponsors enable us to create opportunities for Minnesota students to pursue questions they care about, learn needed skills, share their knowledge, network with like-minded peers, and connect with STEM professionals. When students take their learning beyond the classroom and receive recognition for their efforts, they gain confidence. They also begin to envision a future for themselves in STEM. MAS seeks to expand opportunities and open the door to STEM careers for *all* Minnesota students. To do so, we need *your* support.

\$100

enables one Minnesota college student to present at the Undergraduate Research Symposium

\$300

enables one Minnesota middle or high school student to participate in the State Science & Engineering Fair

\$400

enables one team to compete in Regional Science Bowl

\$500

enables one high school student to present at the Regional Symposium

\$600

enables one middle school team to compete in Regional Middle School Science Bowl

\$15,000

sends five top Minnesota high school state science fair winners to international competition

\$20,000

brings mentoring and enrichment to one school serving students from underrepresented populations

Mail your check to MAS at **970 Raymond Ave. #103, St. Paul, MN 55114** or donate online at www.mnmas.org.
